

Onyedikachi Ejim

Nationality: Nigerian (Nigeria) **Gender:** Male

Phone: [+2348134989184](tel:+2348134989184) **Email:** ejimovc@gmail.com

LinkedIn: [linkedin.com/in/onyedikachiejim](https://www.linkedin.com/in/onyedikachiejim)

Professional Summary

Experienced solutions architect and software engineer with a background in electronics and a strong focus on full-stack development. Skilled in Node.js, Python (Flask, Django), React, TypeScript, and cloud infrastructure. Proven ability to quickly adapt to new technologies and deliver innovative solutions. Passionate about leveraging software engineering to drive efficiency and impactful results.

Work Experience

Team Lead / Solutions Architect

[VouchPay](#)

2024 – Present, Lagos, Nigeria

- Lead development of next-generation credit systems for Africa
- Architected scalable microservices and payment platforms
- Managed technical teams and project delivery

IoT & Embedded Systems Engineer

[Owatt Energy](#)

2022 – 2024, Lagos, Nigeria

- Developed smart energy metering and monitoring solutions
- Designed and implemented IoT infrastructure
- Optimized system performance and reliability

Technical Specialist

[Contronika Technologies](#)

2019 – 2022, Enugu, Nigeria

- Electronics design and embedded systems programming
- Delivered technical development projects for leading institutes
- Implemented secure authentication and authorization systems

Backend Engineer

Wancemo

2023 – 2025, Remote

- Built Africa's first waste management and insight generation system
- Delivered technical solutions for environmental impact

Education & Training

Bachelor of Computer Science

University of The People, California USA

2022 – Present

- Specialized in distributed systems architecture
- Advanced algorithms and data structures
- Cloud computing and system design

Software Engineering Program

African Leadership X (ALX)

2022 – 2024

- Architected distributed systems using microservices
- Developed high-performance backend systems
- Built scalable APIs and real-time applications

Projects

Senda

- Enterprise-level automated email sending system for employers
- Features: analytics, scheduling, tracking, rich UI for campaign management
- Tech: Python, Zepto

VouchPay

- Credit platform for merchants to request loans for verified salaried earners
- Includes wallet system for transfer, deposit, and more
- Tech: NestJS, React Native, DevOps
- [Landing page: www.usevouchpay.com](http://www.usevouchpay.com)

AutoPost (Social Media Poster)

- Platform to create one post and publish across multiple social media platforms
- Features: scheduling, analytics, OAuth integration, rich text/media support

- Tech: MERN (Node.js, TypeScript, NestJS, Flutter, Postgres)
-

Smart Energy Metering

- IoT-based energy metering and monitoring for smart systems
 - Real-time sensor data, device control, automation rules
 - Tech: React, Node.js, MQTT, Arduino, C/C++
-

Crypto Trading Bot

- Automated trading bot for cryptocurrency markets
 - Integrates with major exchanges, supports multiple trading strategies, real-time analytics
 - Tech: Node.js, Python, Django, REST API, WebSocket
-

Health Vault

- Health management system for hospitals to manage patient and doctor records
 - Features: appointment scheduling, medication tracking, doctor-patient communication
 - Tech: Python, Flask
-

IoT Smart Home Dashboard

- Dashboard for monitoring and controlling smart home devices
 - Features: real-time sensor data, device control, automation, secure remote access
 - Tech: React, Node.js, MQTT, Arduino, C/C++
-

Skills

Node.js

Python (Flask, Django)

React

TypeScript

Cloud Infrastructure

API Development

Technical Leadership

Microservices

IoT

Embedded Systems

Docker

Kubernetes

AWS

PostgreSQL

MongoDB

Redis

CI/CD

Figma

Storybook

Jest

Cypress

Conferences & Seminars

Access Bank Tech Seminar

October 2023, Lagos, Nigeria

- Attended Access Bank Tech Seminar focused on digital transformation, fintech innovation, and emerging technologies in Nigeria's banking sector.
 - Engaged with industry leaders, participated in panel discussions, and explored the future of financial technology in Africa.
-

Nigeria Technology Awards (NiTA)

December 2024, Lagos, Nigeria

- Participated in the annual Nigeria Technology Awards, celebrating excellence and innovation in the Nigerian tech ecosystem.
 - Networked with technology professionals, entrepreneurs, and corporate organizations driving digital transformation in Nigeria.
-

Qualities & Interests

- Excellent communicator
- Self-motivation & adaptability
- Attention to detail
- Technology enthusiast
- Energy efficiency advocacy
- Continuous learning & professional development
